BLINDS & SHUTTERS Est.1959

HOW TO OPERATE YOUR

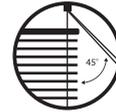

VENETIAN BLINDS

At all times ensure that slats are tilted to the open position prior to pulling up or letting down.

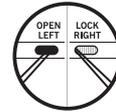

Never attempt to force tilter-rod/cords to close further than it allows.

Hold draw cord at a 45° angle to the inside of the blind when pulling up or letting down. Keep under tension while doing this.

Pull both cords together when opening and closing to ensure the blinds move parallel to the sill.

Pull the cord to the outside to lock, pull to the inside to unlock.

HOW TO CLEAN YOUR

VENETIAN BLINDS

Frequently dust slats with a soft duster.

When necessary, wipe slats bottom and top with a soft damp cloth using a mild solution of dishwashing cleaning liquid.

Allow to dry with natural ventilation or fan.
