

## Member's Fun Evening - 'Club Panels' - Prints or DPI's

The "Members Panel Event" offers an exciting creative challenge that requires you to create a panel of separate images consisting of a **minimum of three only** and a **maximum of seven** individual images. While the subject matter is "**Open**," your panel must follow a "**Specific Theme**".

You may submit your panel in either digital or print format, but please note that you **cannot combine** prints and digital images. If you choose to submit a digital panel, you must also include a composite digital image that displays the layout of your panel from left to right. If you need assistance in creating this composite image, please don't hesitate to get in touch.

Images can be in landscape or portrait orientation, or a combination of both. Your panel may consist entirely of colour images, monochrome images, or a mix of the two.

Panels will be evaluated by our club judges—Peter, Andy, and Jane—and, if time allows, there will be an opportunity for feedback from attending members.

Three Image Panel e.g.:

Still Life with Flowers

Five Image Panel e.g.:

Men with Beards

### Q&A

- Can I submit one image as a triptych for the 3 images? **No.**
- Do the images need to be new to the club? **Previous seen images at the club can be used in your panel.**
- Format for Print Images? **Standard print images on a pre-cut 50 by 40 cm mount (see next point).**
- Do I have to use pre-cut 50 by 40 cm mount boards? **No, you can mount your images onto mount boards. For this occasion, the images could just be "stuck-on" to the boards.**
- What's the format for the digital images in the panel? **Standard projected images as per club events.**
- Can I use the images in any future competition? **"Yes", providing the images have not been seen in any previous club competition.**
