# Community Partner Guide

Transforming Classrooms Together!

Presented by  
Apex Education Foundation, Inc.

# Community Partner Program

## About the Program

The Community Partner program brings together donors and local schools to create impactful change in classrooms. By targeting areas of academic need, this initiative ensures every student has the opportunity to excel. Your support enables us to implement critical programs tailored to the needs of students and educators in our community.

## How It Works

### 1. Collaboration with Local Schools

- Schools identify areas of academic support where additional funding can make the greatest impact.
- A detailed needs assessment is conducted to align donor contributions with specific programs.

### 2. Connecting Donors with Schools

- Donors select an initiative or allow us to allocate funds to a priority program.
- We provide donors with progress updates, impact reports, and insights into how their contributions are benefiting the school or classroom.

### 3. Implementation and Impact

- Funds are directed to the chosen initiative, enabling schools to access resources, materials, and expert support.
- Teachers and administrators ensure program success, and outcomes are tracked to demonstrate tangible results.

# Priorities

## 3rd Grade MAAP Prep

- Objective: Equip low-performing 2nd and 3rd graders for success on the 3rd Grade Mississippi Academic Assessment Program (MAAP).
- Focus: Early interventions in reading, math, and test-taking strategies to build confidence and academic readiness.

## Academic Enrichment LP

- Objective: Enhance learning opportunities for low-performing students, including English Learners (EL) and students with disabilities.
- Focus: Tailored enrichment activities, supplemental learning tools, and small-group instruction to meet diverse learning needs.

## Maintain & Progress by Match

- Objective: Partner with schools to sustain or improve school grades and student performance.
- Focus: A dollar-for-dollar matching program to boost resource availability and support targeted academic progress.

## High Achievers & Advancement

- Objective: Support proficient and advanced students to maintain and exceed their current performance levels.
- Focus: Provide advanced coursework, specialized resources, and enrichment activities to challenge high achievers.

## Technology

- Objective: Purchase and increase resources for improved distance learning.
- Focus: Deploy compatible telecommunication devices to students for continuous learning at-home or in-school.

## Why Partner with Us?

Your involvement in the Community Partner program drives measurable academic progress, uplifts educators, and builds a stronger foundation for future success. Together, we can create classrooms where every student thrives.
