What is consulting, in a nutshell?

6

Case Competition – Key Question

7

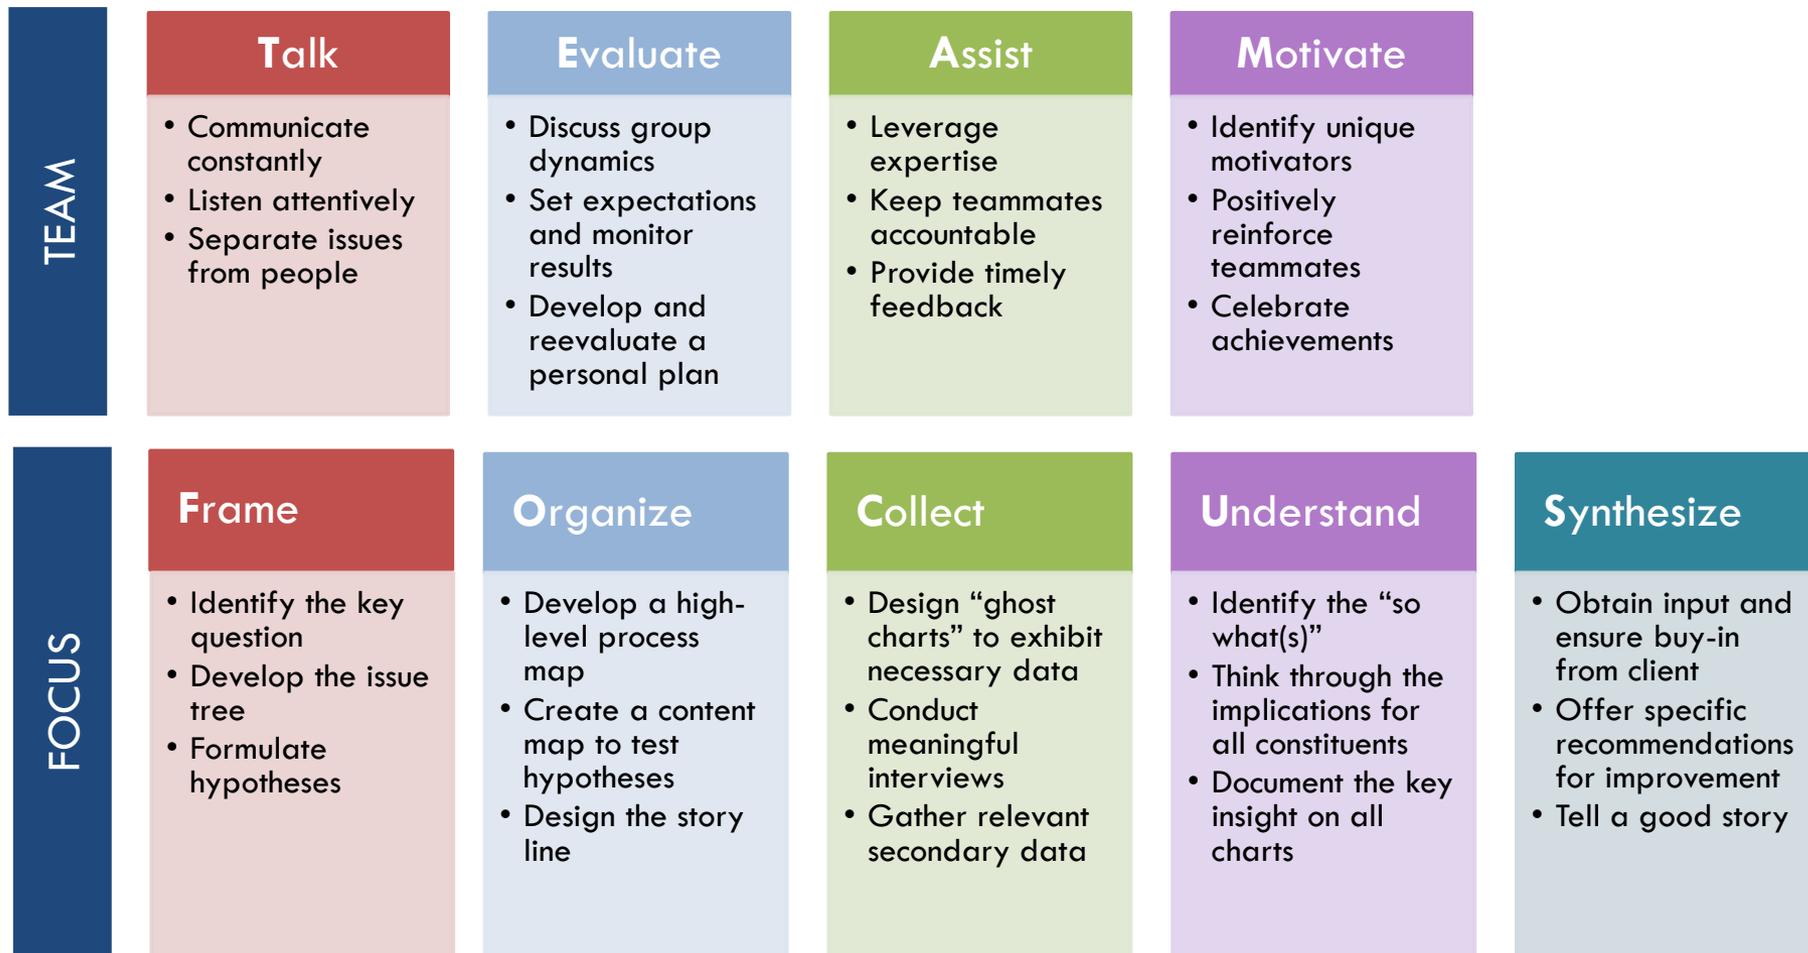

Develop a PR campaign for 2020 launch of our product with a focus on parents of children with Down syndrome, Autism, Wheelchair, etc.

- Who buys the book: Parents, grandparents, other relatives
- What is the exact target market - Down syndrome? Autism? How many?
- What is the theme: Most of the market/children's books have more normal looking children – “It's time for children who don't like all children to see themselves in stories”
- Partnership with Down Syndrome and Autism – organizations – portions of the proceeds go back to the organization?
- How can we create a PR Campaign with very little investment that gets national attention and drives this segment to our website (e.g. national contest for most unique children, etc.) – done very carefully to build esteem and focus on the personalization
