

# AFII research on the Bloomberg terminal

We are pleased to share that AFII research is now available on Bloomberg through the usual channels: BRC, RES, and through the alert functions. We will tag our articles to tickers of relevant bond issuers and bonds. To set up direct alerts on all research:

1) Enter RES <go>, enter “Anthropocene” (no quotes) in the yellow search bar (pictured left), and select “ANF” in the drop-down menu under “Sources & Analysts” (pictured left). This will lead you to the AFII research page (pictured right).

2) From the red bar at the top, Actions -> Create Alert (picture above, right)

3) Select your delivery method (e.g. “Send me a message” and to “Alert Catcher”) and rename your search if desired

4) Create Alert

We look forward to reaching you on Bloomberg.

*The Anthropocene Fixed Income Institute is a non-profit organization “to monitor, advocate for and influence the impact of the fixed income and bond markets in the age of human induced climate change.” For more information about the Institute, please visit [www.anthropocenefii.org](http://www.anthropocenefii.org) or follow us using the hashtag #anthropocenefii.*
