

Perth Integrated Health has been closely involved with the bedding industry for the past thirty years with bedding ergonomics and prescription as one of our major roles. We are no stranger to bedding design with many current bedding in the Bedshed, Dunlop-Simmons and now Harvey Norman range currently in the market with our research conducted over a period of 11 years.

Perth Integrated Health has also been involved in the national training program for bedding consultants which sees its prescriptive program utilized for proper bedding recommendations.

All of these ongoing commercial research and consultancy now plays an important role with our Assistive Technology prescription and recommendations in the NDIS where we provide proper bedding solutions based on biomechanical, neurological, physiological and ergonomics needs of participants.

You'll find revolutionary luxury in every layer of the King Koil Chiro Estate Plush Mattress – the ideal comfort choice for side sleepers. Designed with a Reflex Max Support System and naturally antimicrobial Copper Gel-Infused Memory Foam, this mattress is Australian made, Sensitive Choice Approved and backed by a ten-year guarantee.
