

# NSN SoloSafe Personal Alarm

The SoloSafe device is a personal monitored alarm system designed to provide peace of mind to people living or working alone, the elderly and individuals with medical conditions.

## 24 hour monitoring provides peace of mind in an emergency

**Easy to use.** In case of an emergency, simply press the SOS button and you will be immediately connected to a 24/7 monitoring station where an experienced officer will have the ability to speak with you,

The built in GPS sends our team your exact location so help will be on its way sooner rather than later.

## Features

- 24/7 monitoring with North Star Security's Grade A1 Monitoring Centre
- Real time tracking and monitoring
- Two-way voice communication between the user and operator
- GPS and Google map integration
- Light, compact and can be attached to a lanyard, belt or key chain
- 2-3 day battery life, low battery warning
- Vibration SOS alert function - suitable for the visually impaired

## Cost

Device: \$399

Monitoring; \$49 per month

12 month minimum monitoring
