HORIZON IoT

WASHINGTON STATE
CAPABILITY STATEMENT

CONSULTING | TECHNOLOGY PRODUCTS | SYSTEMS INTEGRATION | PLATFORM DELIVERY

COMPANY OVERVIEW

Horizon IoT is a Seattle-based Small Business Enterprise providing technology consulting, partner-sourced technology products, systems integration, resource augmentation, and end-to-end solutions for Washington public-sector and mission-driven organizations. As the accountable prime contractor, Horizon IoT can advise, source hardware and software, integrate technologies, and coordinate delivery and support around agency requirements.

CORE CAPABILITIES

CONSULTING & ADVISORY

Technology strategy and roadmaps; digital transformation; assessments; business and technology advisory; project and program management; procurement support; and resource augmentation.

TECHNOLOGY PRODUCTS

Partner-sourced IT, OT, RFID, and IoT technologies including hardware, software, networking, mobility, connectivity, sensors, edge devices, kiosks, digital displays, cloud services, cybersecurity solutions, software subscriptions, and related technology products.

SYSTEMS INTEGRATION

Solution architecture; configuration; hardware and software integration; implementation coordination; testing; deployment; training; and lifecycle support coordination.

PLATFORMS & SOLUTIONS

Community Kiosk; asset and personnel tracking; fleet management; digital health; sustainability; smart cities; IT, OT, IoT, cybersecurity, cloud, and connected infrastructure.

GOVERNMENT SOLUTION AREAS

COMMUNITY & CITIZEN SERVICES

Digital access, resource navigation, workforce support, public information, and community engagement.

ASSET, INVENTORY & FLEET

RFID visibility, equipment accountability, RTLS, GPS, fleet operations, and maintenance insight.

HEALTH & PUBLIC WELLBEING

Medical asset tracking, connected facilities, digital health initiatives, and environmental monitoring.

SUSTAINABILITY & SMART COMMUNITIES

Smart facilities, energy and resource visibility, environmental sensing, and connected infrastructure.

IT, OT, IoT, CYBERSECURITY & MODERNIZATION

AI-enabled insight, IT, OT, and IoT convergence, cyber readiness, cloud modernization, networking, operational visibility, and integrated technology delivery.

BUSINESS INFORMATION

UEI:	SV59DBDC7E48
CAGE:	9W3H5
UBI:	605353810
Payment:	Government Purchase Card accepted
Location:	Seattle, WA 98107 USA

CERTIFICATIONS

- SBE, PWSBE, SCS
- Cybersecurity: Certified
- AZ-900 Microsoft Azure Fundamentals
- Artificial Intelligence and Generative AI training

NAICS CODES

- 541512 Computer Systems Design
- 518210 Data Processing & Hosting
- 541511 Custom Programming
- 541618 Other Management Consulting
- 517122 Telecommunications Resellers
- 541513 Computer Facilities Management
- 541611 Management Consulting
- 541614 Process & Logistics Consulting
- 541613 Marketing Consulting
- 541519 Other Computer Related Services

CONTRACT VEHICLE

WA State DES Contract 04618

Prime contractor for RFID end-to-end products, software, equipment, and implementation services.

WHY HORIZON IOT

- Single point of accountability
- Flexible consulting, product, and SI engagement
- Authorized distributor and OEM relationships
- Public-sector identifiers and procurement readiness

ADVISE • PROCURE • INTEGRATE • DELIVER

One accountable prime contractor with flexible, partner-enabled delivery

HORIZON IoT

WASHINGTON STATE
CAPABILITY STATEMENT

GOVERNMENT USE CASES | PRODUCT SOURCING | PARTNER-ENABLED DELIVERY

HOW AGENCIES CAN ENGAGE HORIZON IOT

1 CONSULTING & ADVISORY
Assessments, strategy, roadmaps, project support, procurement guidance, and specialized resource augmentation.

2 PRODUCTS & PROCUREMENT
Horizon IoT can quote and resell partner-provided IT, OT, RFID, and IoT hardware, devices, software, and subscriptions.

3 INTEGRATION & DELIVERY
Solution design, sourcing, configuration, integration, deployment, training, and support coordination as prime contractor.

REPRESENTATIVE GOVERNMENT USE CASES

COMMUNITY SERVICES
Community kiosks, service navigation, digital inclusion, public information, citizen engagement, and workforce support.

ASSET & PERSONNEL VISIBILITY
RFID asset tracking, inventory visibility, equipment accountability, RTLS, indoor navigation, and personnel tracking.

FLEET & MOBILE OPERATIONS
Vehicle visibility, GPS, utilization, maintenance coordination, mobile connectivity, and field operations.

HEALTHCARE & PUBLIC HEALTH
Medical asset tracking, connected facilities, digital health initiatives, environmental monitoring, and facility modernization.

SUSTAINABILITY & INFRASTRUCTURE
Energy and resource visibility, environmental sensing, smart facilities, utilities, and infrastructure monitoring.

SMART CITIES & COMMUNITIES
Connected infrastructure, digital signage, public-safety support, sensor-enabled environments, and community technology.

PARTNER ECOSYSTEM & DELIVERY ROLES

DISTRIBUTION & PROCUREMENT
Carahsoft, Ingram Micro, AtlasRFIDstore, GetWireless, and TD SYNNEX support access to products, devices, software, and sourcing channels.

IT, OT, RFID & IoT TECHNOLOGY PARTNERS
Honeywell, Impinj, Unitech, and Zebra support IT, OT, RFID, IoT, data capture, tracking, mobility, and connected-device requirements.

CLOUD, NETWORKING & INFRASTRUCTURE
Cisco, Intel, and Inaba System Staffing support networking, compute, infrastructure, and specialized delivery needs.

CONNECTIVITY, MOBILITY & EDGE
Peplink, SIMPL, Opengear, and Inseego support mobile connectivity, edge networking, resilient communications, and connected operations.

CYBERSECURITY & ANALYTICS
Splunk supports security, observability, analytics, and operational insight.

COMMUNITY, EDUCATION & NONPROFIT
South Seattle College, Wellbeing Revolution, and Connected Community Innovations support education, engagement, wellbeing, and social-impact initiatives.

STATE PROCUREMENT INFORMATION

Commodity Codes:	920-22, 918-75, 920-40, 918-95, 958-89, 915-51, 920-29, 918-32, 918-76, 918-21, 918-88, 920-45, 920-46
Procurement Approach:	Consulting, partner-sourced IT, OT, RFID, and IoT products, systems integration, and end-to-end solution delivery.
