

GET TO KNOW ME

I'm the Listing Specialist for my team. My responsibility involves the listing, marketing and sale of your home. My entire career has been in sales, sales management with cardiac implantable devices, i.e. pacemakers, and working along side physicians and nurses caring for patients. I truly appreciate and understand what quality patient care is all about. Today, as a Seniors Real Estate Specialist, SRES, I'm transitioning my care to my 55+ mature adult and senior clients. Recently, I transitioned my 90 year old mother from home owner to a senior living community. I understand what my clients are thinking, feeling and going through. I'm here to assist them during their real estate transition journey.

READ WHAT OUR CLIENTS SAY ABOUT US

This was by far the best experience we have had with a realty company in four decades. Kent Lee was the consummate professional, highly engaged in the process, looking out for our interests, and presenting our house in the best possible way (with superb aerial views). His knowledge base and organization was evident at our first meeting. You couldn't ask for a realtor to be more informative and supportive. The team concept is another plus. Alicia Lynch was similarly qualified. Her regular contacts to keep us up-to-date, delivered in a personal and positive manner were greatly appreciated. We would have no reservations about highly recommending this office to anyone seeking real estate assistance. - **Lynda S.**

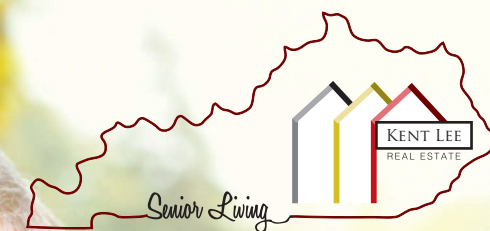

This group is unbelievably great! We worked with Kent Lee after our daughter and son in law told us about the wonderful job he did working to sell my son in laws grandmother's house - at double what the family originally thought they could get for it. And we got the same super service. He even called us to keep us updated on our house sale while he was on vacation fly fishing in Montana. Lol! In the end we, too, got a great price for our home and are now working with Kent on our new purchase. The backup staff are also very good--and while Kent was in Montana he arranged for Nick Peskoe to also stay in touch with us -- so we were being taken care of by Kent, Nick and their assistant, Alicia. That's service!! We have full confidence in the Nick Peskoe agency and would highly recommend them. - **Laurel H.**

I was very pleased with the way Nick Peskoe and my agent, Kent Lee, approached taking on my property and helping me determine my sale price. I felt that they had a full team behind them and that I was supported every step of the way. I really appreciated their teamwork. - **Mary Ann B.**

Kent is wonderful! He helped us evaluate our grandmothers house so that we could make upgrades that would be beneficial towards the sale. In the end, the house was sold before it even officially hit the market. Yay!! We couldn't be more happier with all the help Kent gave to us! - **Brooke R.**
