

I thank God for the people at Asset Recovery, without them I would have never known that I had money coming to me, much less how to get it.

I was kind of leery at first, I thought they wouldn't answer my calls to questions I had, but I was wrong, they answered every call that I made and explain to me the reason why it was taking long.

It took a little over a year, then I received a check for the exact amount they had quoted.

I can't thank you enough Asset Recovery people for your honesty, friendliness and hard work you do to help people like me.
