Yes I went on oct 16 and received the western union funds. And the cashiers check too and cashed it with no problem at your bank.

I didn't received no survey or comment questionnaire with your cashiers check mail. Anyway I cannot thank you enough for taking care of all the worries of those funds as I need them desperately. You were right I was hesitant in dealing with unknown company/people when it involves money. I know friends who have been scammed through e mails and mails and money lost. Now I can rest peacefully.

I would give your company/ you a rating of 10 in excellent service. Again thank you so much.

Editha,

Below is an email I received from Western Union showing that the transfer went through.

Did you pick up the money yet?

Sincerely,

John Fox
