

Preferred also offers lamination services. Our drum laminators are capable of laminating fabrics up to 130” wide and our Flat Bed laminator up to 70” wide. We can laminate a wide range of fabrics and also offer our own line of flame-retardant backing called Firewall®. Firewall® flame barriers are the most effective “active” flame barriers on the market for a wide range of furniture and fabric constructions. Firewall® barriers are the ultimate tools to meet the requirements of CAL TB 133 and BS 5852. Below is a chart recommending which Firewall product works best with different types of fabric.
