Discover How We Can Help

TESTIMONIALS

"John has a unique ability to see what's at the heart of a situation and then focus on what needs to be done to improve or resolve it. His insight and ability to ask the right questions to gain a deeper understanding always blows me away. He is a caring and conscientious person who puts other people's needs ahead of his own. Whenever I get the chance to get his input on a challenge I'm facing, I always leave wishing I'd asked sooner!"

Fergus Macdonald | Co-Founder at the Tartan Blanket Co.

"John recently spoke as a guest speaker at one of our mentoring sessions for senior employees in our business. John's deep insights and expertise into building successful businesses which embrace change and maximise resources ignited an extremely valuable and engaging discussion and ultimately left us more aware of our responsibilities as leaders and hopeful in the positive impact of AI on improving organisational profitability and culture."

Elisa M. | Marketing Consultant, Lessons on Leadership

"I hired John to document my operations policy so that it could pass the scrutiny of my regulator, and I must say working with him on this project was pleasant! he is diligent, supportive, and goes out of his way even for a low resourced company such as mine. Definitely working with him on more projects going forward as his wealth of knowledge also brings more value to my business in many other ways."

Trevor K. | CEO/Co-Founder

"I worked with John during a period of strong growth for Copylab. John not only managed the finance and back office functions to effectively cope with the demands of the scaled up activity, but he concurrently initiated process improvements and efficiency savings. Alongside his professional capabilities the reason I would strongly recommend John for any of his future endeavours is due to his interpersonal skills and ability to build effective teams and working relationships. it was always a pleasure to work with John."

Richard Perrett | International Business Expansion Specialist
