No. 12 Bright

## COLORS: 7

Bright Red  
Chrome Orange  
Chrome Yellow  
Cobalt Blue  
Green Oxide  
Mars Black  
Titanium White

*TIP: Use hand-held hairdryer to speed up drying times.*

## TRANSFER PATTERN

- Trace and transfer pattern onto canvas. Refer to methodology for detailed instructions

## STEP ONE

- Use No. 12 Bright Brush with Mars Black to paint background. Rinse brush.

## STEP TWO

- Use No. 8 Bright Brush to mix (1½) parts Titanium White with (1) part Bright Red. Use mix to paint main sloth body. Rinse brush.

### STEP THREE

- Use No. 8 Bright Brush to mix (1½) parts Titanium White with very small amount of Bright Red. Use mix to paint remaining body sections. Rinse brush.
- Use No. 2 Round Brush and Titanium White to paint sloth's face. Rinse brush.

### STEP FOUR

- Use No. 8 Bright Brush to mix (1) part Chrome Yellow with small amount of Green Oxide. Use mix to paint leaves and stem. Save mix for STEP EIGHT, bullet 2. Rinse brush.

### STEP FIVE

- Use No. 12 Bright Brush and Green Oxide to highlight center of leaves and top edge of stem. Rinse brush.

### STEP SIX

- Use No. 8 Bright Brush to mix (1) part Titanium White with (½) part Cobalt Blue. Use mix to paint remaining leaves. Save mix for STEP EIGHT, bullet 1. Rinse brush.

### STEP SEVEN

- Use No. 12 Bright Brush and Cobalt Blue to highlight center of leaves. Rinse brush.

### STEP EIGHT

- Use No. 8 Bright Brush and mix from STEP SIX to paint veins on green leaves. Rinse brush.
- Use No. 8 Bright Brush and mix from STEP FOUR to paint veins on blue leaves. Rinse brush.

### STEP NINE

- Use No. 2 Round Brush and Mars Black to paint eyes, mouth, and nose. Rinse brush.

### STEP TEN

- Use No. 8 Bright Brush to mix (1) part Chrome Orange with (1) part Bright Red. Use mix to paint hash marks on sloth. Rinse brush.
- Use No. 2 Round Brush and Titanium White to paint claws and touch up eyes, if necessary. Rinse brush.
