

THE FUNKI FACTORY

We are covered by Public Liability Insurance, which has been provided by DOA UNDERWRITING LTD.

This insurance covers accidents or incidents that occur to the incorrect installation of the equipment by the company. It does not cover the misuse of equipment by the hirer or his/her guests. A list of rules for proper use is supplied by the company and these should be followed at all times

It is normal company procedure to use its own staff for installation, but on occasions this may not be possible. In this event instructions will be given to the hirer on the installation procedure, but should these not be followed then the company will not accept any responsibility or liability for any incidents.

It should also be noted that the hirer is responsible for the supervision of people using the equipment. This is very important when children are involved.

Hazards such as fixing pegs, generators and electrical equipment are mentioned in the rules. Additional hazards surrounding the inflatable such as walls, paving, trees, plants, etc. Will be pointed out by our staff as hazard. Installation of the equipment will be in such a way as to minimise these external dangers, but this may not always be possible.

You should ensure that the installation meets your requirements and should you require any advice or assistance then you should ask our staff at the time of installation.

This is a brief resume of our Liability cover and is intended as a guide only. Any additional insurance that you consider beneficial is the responsibility of the hirer.

Please be vigilant and sensible but above all be safe and have fun.
