## AFW124420 and AFW124424 End of Range Shelving Units

\*\*\* Please read and review all instructions prior to starting assembly \*\*\*

**Step 1** Screw minifix posts (6) into each end panel (B).

**Step 2** Screw rafix posts (4) at top and bottom of each end panel

**Step 3** Lay back panel (E) horizontally with holes facing up. Position the minifix cams (5) in holes along edge of back panel with arrow in cams facing outward.

**Step 4** Insert minifix posts in one side panel into holes in edge of back panel. Lock into place by turning minifix cam clockwise with phillips screwdriver

**Step 5** Repeat step 4 with remaining end panel

**Step 6** Position Soffit (A) over the rafix posts and lock into place by rotating the internal screw head in the rafix cam (1) clockwise.

**Step 7** Position toe kick (C) over the rafix bolts and lock into place by rotating the internal screw head clockwise.

**Step 8** Hammer the adjustable glides (3) into the holes in the bottoms of the side panels. Rotate to level assembled unit.

**Step 9** Set shelf pins (2) and the fixed shelf (D) in the location to close off the base of the unit. Set shelf pins where needed or the adjustable shelves (D).

## End of Range Shelving Units

### Furniture Care Recommendations from the nation's leading furniture manufacturers

- 1.) Dust frequently.
- 2.) Use a quality furniture polish approximately once a month to lessen your chance of expensive refinishing jobs.
- 3.) Clean up spills immediately. Use a blotting action rather than a wiping action.
- 4.) For cleaning use a soft, lint-free absorbent cloth.
- 5.) Avoid placing furniture in direct sun light.
- 6.) Avoid extremes in room humidity. Too high or too low humidity can cause wood to warp or glue lines to fail.
- 7.) Avoid extreme changes in temperature. Arrange furniture away from radiators, registers and air-conditioning units.
- 8.) Rotate accessories on furniture so they do not sit in the same place all the time.
- 9.) Do not place plastic or rubber objects on a wood finish-their ingredients react with those of the finish.
- 10.) Use pads, cloth or felt to protect the furniture surface from plastic, rubber, hot dishes, beverages, bookends, flowerpots and vases.
- 11.) Lift objects-do not drag them across the furniture surface.
- 12.) Never use silicone or petroleum distillate polishes.
