Rental Per Day \$50	1	ea
Product Notes: This quote does not include any installation labor, unless otherwise noted. Our handrails meet building code requirements in the Municipality of Anchorage, if installed correctly. The top cap or grabber is not supplied unless otherwise noted. Our posts are painted satin black, unless otherwise noted. Cables are plain 1/8" stainless steel cable, unless otherwise noted.	1	ea
Safety: Always wear safety glasses and gloves while handling or installing GC Cable Handrail systems. GC Cable Handrail is not responsible for any injury or incorrect use of the tensioning equipment and tool usage. Handrails HAVE to be assembled with a top cap or grabber before cables are tensioned. If cables are tensioned before assembly is completed, there is a possibility of injury or other serious hazard.	1	ea

Description	Qty	U/M
<p>Tool Rental Information: When renting our tensioning device and crimper, we charge by the day for the rental. We have included one day of rental in this quote, unless otherwise stated. Deposit is \$500 on the day the equipment is rented. Deposits are refunded when equipment is returned in good working order. GC Cable Handrail cannot be responsible for correct use of our equipment. Daily or weekend rate: \$50 and is included in the quote above. Equipment rental and return location is: GC Cable Handrail, 7133 Arctic Blvd Suite 3, Anchorage, AK 99518.</p> <p>Information regarding stairs: Our stair handrails are built on a 7/11 rise/run layout. Meaning a 32 degree angle layout. If you need something other than 7/11 or 32 degrees, you need to specify that degree. This will be a custom post that will be specific to your order. Please see attached worksheet. Note: if your stairs are not plumb and level, rise and run measurements by themselves, will not give you an accurate stair angle. Use a level to find out how level your stairs are, refer to our associated drawing. If you do not give us the rise/run or stair angle when placing your order, we will build to the 7/11 32 degree layout. If you begin your installation and realize you need a different angle, we will re-make your posts at an additional cost to be determined at that time.</p> <p>Disclaimer: GC Cable Handrail is NOT responsible for proper installation of posts, fastener size and location, or proper tension of cables. If you are supplying your own cable and hardware, GC Handrail is not responsible for proper fit of cable and hardware if purchased elsewhere, or proper tensioning or installation of that cable and hardware. Our posts are drilled with 1/4" holes.</p>	1	ea
