601 W McKinley Ave, Pomona, CA 91768

2. Summary

2A. Autobiography of Lee Dae Hoon

Lee Dae-Hoon, born on February 5, 1992, in Seoul, South Korea, is one of the most accomplished taekwondo athletes of all time. He trained under coach Lee Joo Yoel at Yongin University, quickly gaining recognition for his speed, precision, and strategic adaptability.

Lee's breakthrough came at the 2010 Asian Games in Guangzhou, where he won his first gold medal. He earned a silver medal at the 2012 London Olympics and a bronze at the 2016 Rio Olympics. Over his career, he secured three World Championship golds (2011, 2013, 2017) and 12 Grand Prix gold medals between 2014 and 2019. He also dominated the Asian Games, winning gold in 2010, 2014, and 2018. Known for his adaptability and tactical intelligence, Lee became a role model for future taekwondo athletes. He retired after competing in the 2020 Tokyo Olympics, leaving behind a lasting legacy in the sport.

Lee Dae-Hoon's Seminar will bring together taekwondo athletes and enthusiasts for a unique opportunity to learn from one of the sport's greatest competitors. Through interactive training sessions and strategic demonstrations, participants will refine their techniques and gain valuable insights into high-level competition.

This seminar will emphasize skill development, mental discipline, and sportsmanship, encouraging athletes to push their limits while fostering a strong sense of community. Lee's experience and tactical knowledge will provide attendees with a deeper understanding of taekwondo and motivate them to reach new heights.
