

Our Mission and Values

See the ability in “disability.”

We believe that when hiring, the focus should be on the qualifications and talents of an individual, not on his or her disability.

Dispel the myths and fears

that limit one’s goals and dreams. We believe in success without limits.

Support employment for people with disabilities, and promote and build awareness of the value to engage people with disabilities in the workforce.

We are committed to creating quality improvement practices and processes to increase and sustain disability awareness.

Our mission is to ensure integration and inclusion throughout our communities.

See the ability in “disability.”

Understanding the Challenges

We know firsthand the challenges and misconceptions that individuals and employers face, from understanding disability awareness “etiquette” when hiring or working with a person with a disability, to navigating the ADA (Americans with Disabilities Act) to better understand rights and compliance.

We break down all this information in our informative virtual seminars and workshops.

Success without limits
