

Our Mission and Values

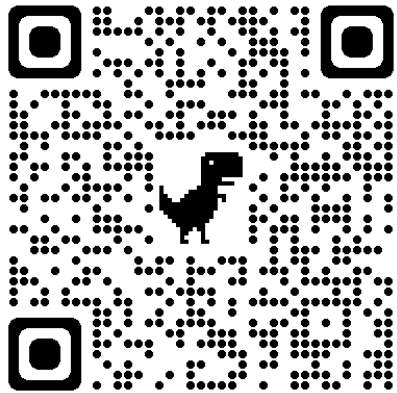

See the ability in “disability.”

We believe that when hiring, the focus should be on the qualifications and talents of an individual, not on his or her disability.

Dispel the myths and fears

that limit one’s goals and dreams. We believe in success without limits.

Support employment for people with disabilities, and promote and build awareness of the value to engage people with disabilities in the workforce.

Our mission is to ensure integration and inclusion throughout our communities.

Success without limits
