

POD Well History

Point of Diversion (as explained by George Roth AEPA)

The wells associated with the amended licence (DAUT0016030) are Well ID # 469206 and 9906262.

The Original licence (00034575-00-00) had two wells listed as the Point(s) of Diversion (Well # 75-01-30-04 and 75-01-30-01). Well # 75- 01-30-01 had a maximum pump rate of 80 Canadian gallons per minute (Cgpm) with an annual diversion of 6.8 million Canadian gallons (mCg). Well # 75-01-30-04 had a maximum pump rate of 60 Cgpm with an annual diversion rate of 2.2 mCg.

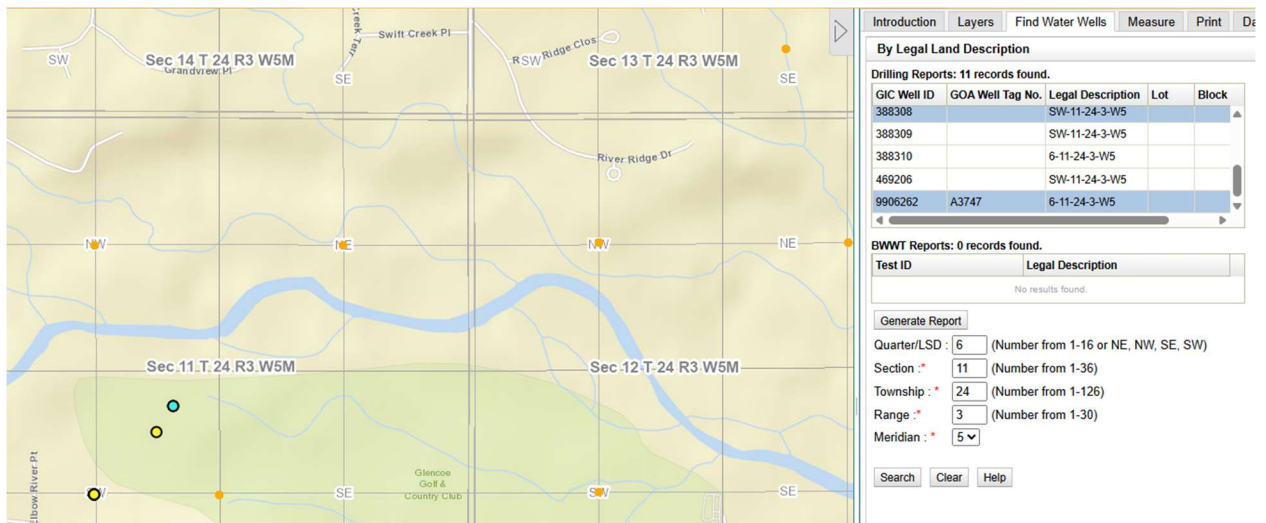

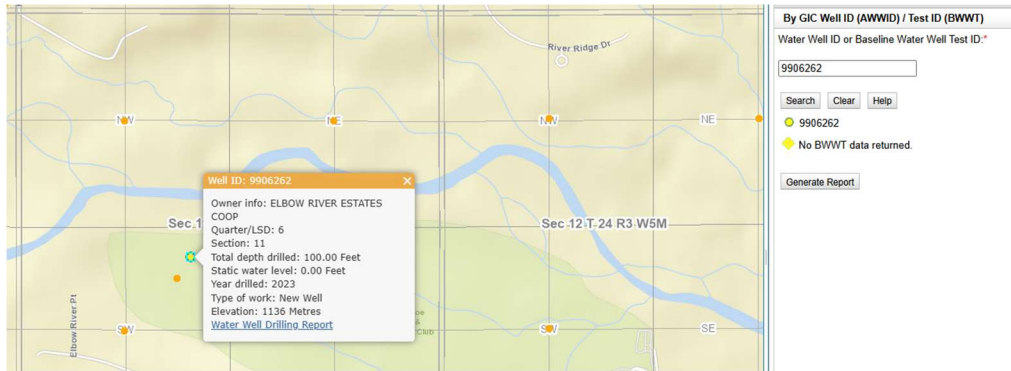

The recent amendment application DAPP0157938 was to replace Well # 75-01-30-01 with Well ID # 9906262 and has been authorized to possess the same diversion rights as the well it replaced.

Well ID#469206

Well ID#9906262

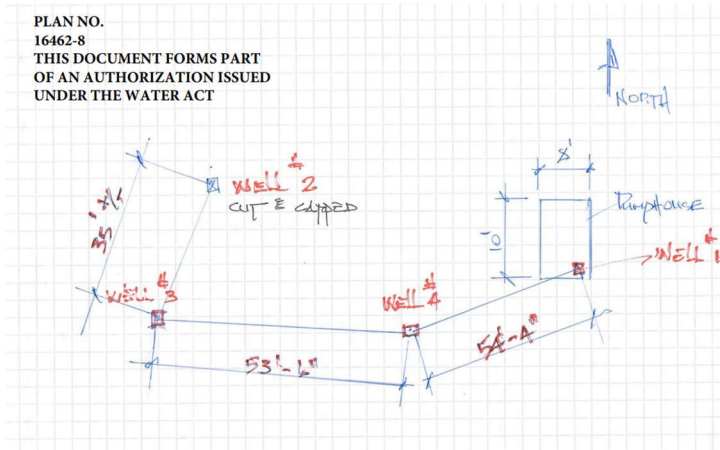

Water well by Elbow River Estates in 2023.

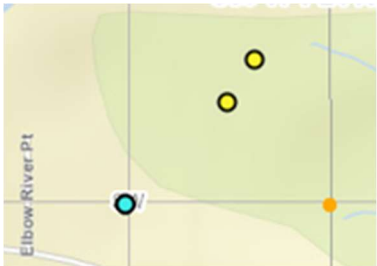

The well map view of the wells in question.

Michael Zubkow's sketch of well locations.

The well which is described by the AEPA as Well # 75-01-30-04 as one of the two original wells on the POD Diversion license. This well ID location indicates it is nowhere near this pumphouse location.

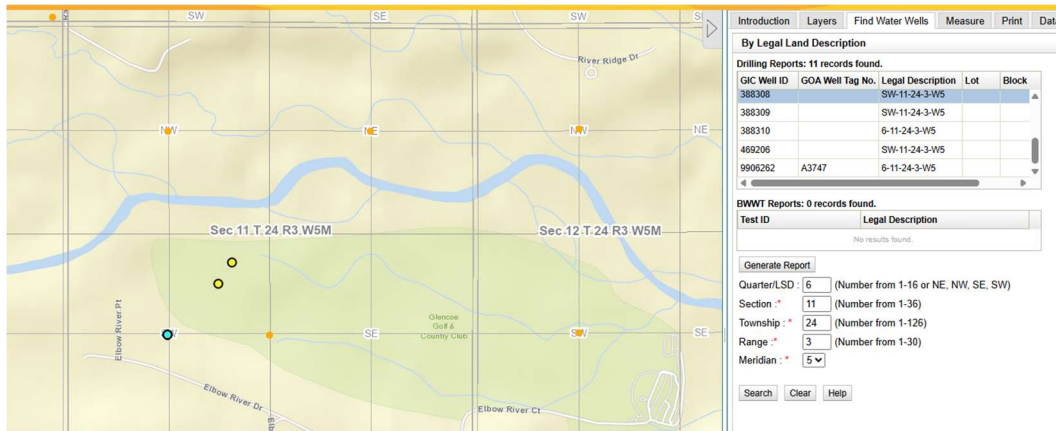

The easement drawing included with the POD application shows the original two wells.

This easement drawing does not extend to the new well location.

Decommissioned Well ID#388308 highlighted in blue on the chart and on the map.
