

HUW THOMAS

HOW TO ADAPT TO ANY CHANGE

LEAD YOURSELF THROUGH CHANGE & UNCERTAINTY

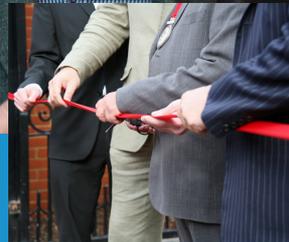

Virtual Masterclass

Nurture an adaptive, resilient culture

Employees are equally fatigued by their own thoughts as they are by your changing organisation. Help them master their mindset and enjoy a lasting culture shift when delivering this at scale.

"Thank you, that was a wonderful session!"
- Nick

Raise workforce readiness for change

New technology, processes and operating models are only as transformational as the people willing to transform with it. Your next change program is more likely to succeed with workers armed with an adaptive mindset.

"Loved the reminder about reframing."
- Deb

Increased return on change investments

Evidence suggests most transformation programs fall short. An adaptive workforce could be the difference between a multi-million-dollar return on your change investment or a colossal loss to be written off.

"Thank you Huw, very informative!"
- Kadisha

A UNIQUE DEVELOPMENT EXPERIENCE

This concise, high-powered masterclass transfers world-class expertise in change and self-leadership directly to your workforce. Combining evidence-based psychology & neuroscience with Huw's extensive experience helping 200+ organisations transform over 20 years, your people will be equipped with the insights, language and tools to evolve into an adaptive, resilient culture capable of sustaining any high-velocity transformation.
