CAN-BUS
V3.0.exe.7z

Step 1 – Download the Software File
Once you receive the software, you will download a compressed file in .7z format.

Step 2 – Extract the File
Locate the downloaded file on your computer (for example: CAN-BUS V3.0.exe.7z).
Right-click on the file and select Extract or Unzip using a program like 7-Zip or WinRAR.

CAN-BUS
V3.0.exe

Step 3 – Locate the Installer
After extraction, you will find the installation file (for example: CAN-BUS V3.0.exe).
This is the file you will use to start the installation process.

Step 4 – Start the Installation Wizard
Double-click the installation file to open the CAN BUS V3.0 Setup Wizard.

A welcome screen will appear, introducing the installation process.
Click Next to continue.

Step 5 – Select Installation Folder
Choose the folder where CAN BUS V3.0 will be installed.
If you want to install it in a different location, click Browse and select your preferred folder.
Once the folder is set, click Next to continue.

Step 6 – Ready to Install

The setup wizard is now ready to begin installing CAN BUS V3.0.

Click Install to start the installation process.
If you need to review or change any settings, click Back.
To cancel the installation, click Cancel.

## Step 7 – Confirm Installation Permissions

A security prompt from User Account Control will appear asking if you want to allow the app to make changes to your device.
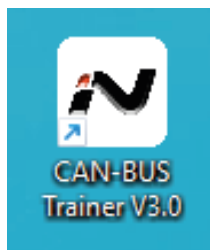

Click Yes to continue the installation.

Step 8 – Finish the installation
Press Finish

Step 9 – Shortcut
It will create a shortcut on the Desktop

Then double click on the Can-Bus trainer, and the awesome Can-Bus Multiplex Trainer software will appear.!
