

My mother, Jeanne Hindsley, founded French Papers in 1968. She traveled throughout Chicago's North Shore offering beautifully crafted, personalized stationery and gifts. Her attention to detail and passion for custom design quickly earned her a loyal following.

In 1994, I took over the business and have been building on her legacy ever since. I'm committed to helping clients celebrate life's special moments through thoughtfully curated products, from stationery and invitations to personalized gifts.

As demand grew beyond the local area, I launched this website to make French Papers accessible to customers nationwide. The online store features many of our long-standing favorites, along with fresh, seasonal additions.

Personalized service remains at the heart of French Papers. I take pride in building strong client relationships and am always happy to assist personally by phone or email.

A handwritten signature in blue ink, appearing to read "Amy", with a large, elegant flourish above it.
