USER GUIDE

**Storing Contacts**

Cloud Telematics

First off click the contacts button on the right hand side of the screen.

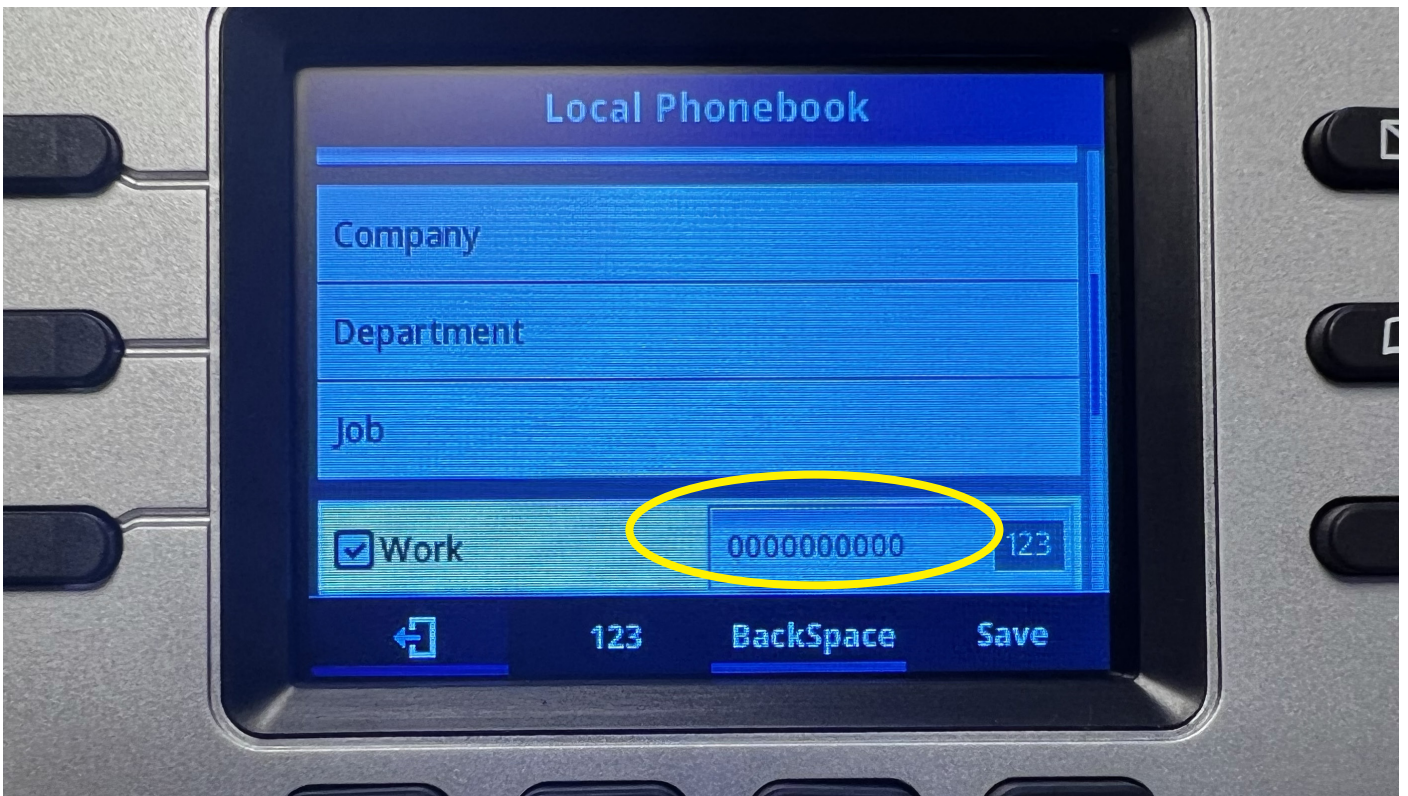

Then click the option "Local Phonebook"

Next click "New" to add a new number.

Next you will need to fill in the required details of the person you are adding to your contacts using the number keypad and the directional arrows.

You will need to add a phone number to save the contact, you can add work, home and mobile numbers.

You can also add that contact into any groups that have been made or you can add them to your blacklist or whitelist, click save and that will store your contact.
That's your contact saved, to see a list of your contacts, click on the contacts button you can dial or delete from this screen.
