FixUS – Restoring America Now

It's time for us to engage in a conversation about how to make healing our fractured nation a top national priority – FixUs at 33777
OUR GOAL

Make healing our fractured nation and fixing our broken political system a *top national priority that our leaders cannot ignore.*

OUR CORE PRINCIPLES

- Healing our divided nation is the defining challenge of our time
- Extremism on both sides of the political divide have led America into a deepening crisis
- A revitalized citizenry is the key to fixing our broken political system and preparing our nation to face the serious challenges ahead
- We value compromise over conflict, discussion over divisiveness, and progress over partisanship
- Americans share a common destiny; working together we can secure a future of freedom, justice and prosperity for future generations
When I walked out of the Pentagon after 28 years in uniform, I never thought I’d say this, but what is going on politically in America today is a far graver threat than any our nation faced during my career, including the Soviet Union. And it’s because this threat is here and now, right at home, and it’s coming from within us. I guess the irony of being a great nation is the only power who can bring you down is yourself.

Members of the Exhausted Majority are considerably more ideologically flexible than members of other groups. While members of the “wing” groups (on both the left and the right) tend to hold strong and consistent views across a range of political issues, those in the Exhausted Majority tend to deviate significantly in their views from issue to issue.
