

- **Hydrant Locations**

Whispering Woods Estates has a fire hydrant system in the community servicing nine fire hydrants supplied by gravity from two water towers with 96,000 capacity each.

- **Ingress/egress routes for the community**

There is one paved road leading into Whispering Woods Estates. Emigrant Trail is .6 miles in length through the community, with three Cul-de-sacs connected. All are maintained by the Shasta County Road Department with good signage.

Emigrant trail continues as a dirt road, however shortly after the pavement ends, the road is only passable by high profile vehicles due to lack of maintenance. This could potentially be a viable egress route with maintenance performed.

- **Whispering Winds estates has two Fire Departments within a 6-mile radius**

Cal Fire station and Shingletown Volunteer Fire Departments (SVFD, which includes three fire stations). The personnel provide fire suppression and emergency medical services

Personnel

Cal Fire has **15** employees: 7 schedule A employees and 8 schedule B. The Department is constantly staffed and dedicated to protecting the Community of Shingletown. The community of Shingletown has 3 volunteer fire stations with **9** Volunteers.

Volunteer Fire Stations

Shingletown Volunteer Fire Department, Shasta Forest Village Fire Department, and Starlite Pines Volunteer Fire Stations.

Equipment

(2) Type 2 Engine	Cal Fire and SVFD
(2) Type 3 Engine	Cal Fire and SVFD
Water Tender	SVFD

Department resources include up-to-date firefighter gear for all responders (*i.e., protective clothing, breathing apparatus, and radios*), necessary firefighting tools and appropriate medical response equipment.

- **Water Supply for fire response**

Currently, there are two water towers supplied from one of two available community wells. The water system is maintained by Shasta County CSA#13. The gravity fed water system provides each home with domestic water supply.
