

VR & Golf: A Unique Summer Camp for Your Child

Dates: June 22 – August 28 (Any chosen week) | **Time:** 08:00 – 13:00 (Weekdays)
Development Program: 5 hours per day | **Group Size:** 6–10 children per group

Why Are We Unique?

This is much more than just a standard summer camp. We have designed an innovative environment where the sport of successful individuals seamlessly merges with the technologies of the future—proven to be two or more times more effective than classical education frameworks.

Imagine this: your child masters real-world golf on professional simulators and courses, and immediately transitions into immersive VR environments, building essential spatial and technological skills for the upcoming AI era economy. This entire experience takes place within a comfortable, modern city-center facility, completely eliminating the need for long, exhausting travel or exposure to intense summer heat. We bring active sports, live communication, and high-tech innovation together under one roof!

Program Curriculum

Subject	Description
GOLF (2 hours)	Training with authentic, child-sized professional golf clubs on city-center indoor courses. Directed by a professional instructor and native English speaker. Features intensive training, foundational practice, and skills mastery.
VR TECHNOLOGIES (2 hours) (Collaborative Teams)	Fostering advanced spatial intelligence and critical competencies tailored for the AI-driven economic landscape using team-based simulators. Activities focus on imagination expansion, conceptual thinking, and creative art design across mediums like Sketching, Graffiti, 3D Canvas (Fine Art), and 3D Modeling. Includes exciting multiplayer VR gaming sessions.
ACTING & VOICE WORK	Building self-confidence, mastering creative improvisation, and refining facial expressions and vocal presentation skills.
TEAM CREATIVITY (40 mins)	Exercises focused on collaborative imagination, team-based problem-solving, structured idea generation, and interactive teambuilding games.

Daily Schedule (Monday – Friday)

The daily routine is precisely structured to balance physical movement with cognitive and creative immersion over a 5-hour period:

- **08:00 – 09:00** | VR Master Class (Sketching, Graffiti, 3D Canvas (Fine Art), 3D Modeling)
- **09:00 – 10:00** | Golf (Instruction & Interactive Practice)
- **10:00 – 10:30** | Refreshment Break (Children bring their own lunch box)
- **10:30 – 11:00** | Acting Skills, Voice Control, Art, and Team Games
- **11:00 – 12:00** | Multiplayer VR Games
- **12:00 – 13:00** | Golf Intensive (Advanced Instruction & Final Practice)
