

QUEEN CITY PROFESSIONAL SERVICES

UP YOUR GAME AND PROTECT YOUR PROFITS

Audit Assistance

- Every business with a workers compensation policy needs to have a workers compensation audit at their policy expiration.
- This will ensure proper coverage and policy expenses for your business.
- QCPS can accurately dissect your workers compensation environment to successfully and efficiently complete your audits.

Mod Analysis

- This analytical program explains and presents your total workers compensation experience.
- The use of this tool will display your total premiums, losses paid and losses expected to guide your business defensively through workers compensation insurance.
- We will strategically guide you to protect your profits, with our expertise within this industry and the use of this tool.

Workers Compensation

- Employers must follow stringent state guidelines to remain in compliance.
- If your business has been sent a non-compliance notification, you must respond quickly and efficiently to protect your assets.
