

CAPABILITY STATEMENT

Senior Project & Program Leadership for Complex, Regulated Delivery Environments
Federal Contractors • Higher Education • Research & Grant-Funded Programs • ERP & Enterprise Initiatives

Creative PM Solutions provides senior-level project and program leadership for organizations navigating execution risk across complex, compliance-driven initiatives. We help stabilize fragmented programs, strengthen governance, improve financial visibility, and restore alignment across delivery ecosystems.

We partner with federal, higher education, and research-driven organizations where operational complexity, competing priorities, vendor dependencies, and decentralized ownership can create breakdowns in accountability, execution clarity, and delivery confidence.

Through embedded or advisory leadership models, we establish structured governance, operational discipline, stakeholder coordination, and measurable execution frameworks that improve visibility, strengthen decision-making, and support sustainable program delivery.

Core Services

Service Area	Problems Solved / Value Delivered
ERP & Administrative Systems	Stabilizes ERP modernization and enterprise system initiatives through governance, vendor oversight, delivery coordination, and operational readiness support
Academic, Administrative, and Enterprise Platforms	Aligns technology, academic, and operational stakeholders across SIS, LMS, CRM, and institutional platform initiatives
Program Stabilization & Governance	Restores delivery visibility, accountability, audit readiness, and executive decision support across at-risk or rapidly scaling initiatives
Grant & Research-Funded Initiatives	Strengthens compliance, sponsor reporting, funding oversight, and multi-stakeholder coordination across grant-funded environments
Education & Training	Develops experiential, execution-focused learning programs that strengthen operational thinking, project leadership, and workforce readiness

Who We Serve

Federal Agencies & Public Sector • Federal Contractors & GovCon Ecosystems • Higher Education Institutions • Research & Sponsored Program Offices • Workforce Development & Innovation Initiatives • Executive Leadership Teams (CIO, CFO, Deans, Program Sponsors) • Consulting & Implementation Partners

Representative Experience

Draper Laboratory • BST Global • Unanet • Sprint / Samsung Telecommunications America • University of Maryland • University of Pennsylvania Nursing • Rennes School of Business (France) • SOVA Innovation Hub • GovCon and higher education ecosystems

Why Choose Us

Capability	Problem Solved / Value Realized
Regulated Environment Fluency	Navigates complex governance, compliance, and audit-sensitive environments where operational visibility and accountability are critical
Rapid Integration	Rapidly restores execution structure, delivery visibility, and operational accountability during periods of transition, escalation, or delivery instability
Strategic Advisory Independence	Provides vendor-agnostic governance and execution oversight that protects organizational and mission interests
Financial Discipline	Strengthens financial visibility, reporting accuracy, audit readiness, and defensible governance practices
Stakeholder Alignment	Coordinates executives, operational teams, vendors, sponsors, and delivery partners across fragmented environments
Execution Framework Leadership	Establishes repeatable governance and execution frameworks supporting sustainable growth and operational maturity

Engagement Model

Embedded or advisory senior project/program leadership • Prime and subcontractor-aligned delivery support • Fixed-term stabilization and governance engagements • Rapid mobilization (1–2 weeks) • Milestone-based or scalable engagement models | Common Engagement Scenarios: Program stabilization and governance recovery for ERP and enterprise initiatives • Independent oversight for complex, multi-stakeholder implementations • Financial visibility and audit-readiness support for grant-funded and research programs • PMO maturity and operational alignment initiatives within regulated environments • Experiential project leadership workshops and cohort-based programs

Credentials: Strategic Leadership (PMI-PMOCP™) | Project Execution (PMP®) | Enterprise Business Management (MSc)
