ElevenTwelve

Giorgio Tavecchio
Co-Founder and President

Why ElevenTwelve? In homage to their days as American football players, Paolo, Davide, Vincenzo, and Giorgio chose their old jersey numbers to represent their brand. Whether making tackles on dirt fields in Italy or kicking field goals in the NFL, playing American football has been an incredible experience. In gratitude, they share the best Italian wine, pasta, sauces and spreads with you. Our Story: Giorgio Tavecchio travels back to Italy a few times a year to visit family and coach American Football camps. In 2018, he helped coach the "Torino Is Bear Territory" Football Camp hosted by his alma-mater Cal, where he struck up a casual conversation with a curious on-looker, Paolo Tempo. This conversation led to a friendship rooted in a shared passion for American Football. From the roots of this friendship blossomed an idea; a desire to repay the United States for their unique journeys in American Football. "What do we have to offer?" the two asked themselves. They found their answer in the fertile majesty of their native soil: Italian food and wine. In true team-spirit, Paolo brought on board Davide Merlo, his teammate from the glory days of American Football in Italy, adding over thirty years of wholesale grocery sector experience and the tenacity of a Defensive Lineman to the team. To round it out, Giorgio roped in Sicilian-born placekicker Vincenzo D'Amato, best friend and former college teammate to add a dash of Southern spice to this outfit. Combining their experiences in American Football with their love for Italian cuisine, Davide, Paolo, Vincenzo, and Giorgio bring you the best that Italian food and wine has to offer. Why you choose ElevenTwelve: ElevenTwelve is more than four Italian-born football players importing the best Italian wine, pasta, and sauce to the United States. ElevenTwelve is more than a brand that ensures the highest quality products and experience.

ElevenTwelve is a lifestyle celebrating the tradition and quality of Italian culture. ElevenTwelve is Italy. Here. We welcome you to join us on this journey!

Finger Licking Dutch, LLC

John Bronson
President/Operations

Finger Licking Dutch is a Dutch Caramel Stroopwafel Company started by Former NFL Player, John Bronson, and Dutch native, Femke Veelenturf. Our products are authentic, premium, and produced in The Netherlands, to provide the real Dutch taste. Femke is from The Netherlands where stroopwafels were invented over 200 years ago. On one of their first dates, Femke gave John a cup of coffee with the famous Dutch cookie, a stroopwafel on top of the mug. John had never tasted such a delicious cookie before, and he was immediately hooked with the taste of warm caramel surrounded by two crispy wafers. The Netherlands is the motherland of stroopwafels. Stroopwafels are one of the best-selling products in the Netherlands and now Finger Licking Dutch has made them readily available in the United States of America.

PowerDrive Training Products, LLC

Doug English
CEO

PowerDrive Training Products manufactures and distributes a patented training device known as the PowerDrive. It was developed by Doug English (Detroit Lions 1975-1985) and designed to teach and strengthen proper movement at the point of contact. The primary difference between The PowerDrive and virtually all other training devices is that it employs "rolling resistance." Most other training devices slide, and become easier to slide once in motion, allowing a migration to bad form and requiring constant correction. Rolling resistance requires the hands to work upwards, the hips to stay flexed and low, and the hands, hips, and feet to coordinate with each step in order to roll it. The effects are measurable, on video, within 2 weeks.

Brighton Jones

Brett Carolan
Partner

It's about helping people navigate the complexities that come with having it. For us, that boils down to understanding in detail the values, goals, and personal circumstances of each of our clients. We knew from the beginning that there was a better way, and we set out to build a firm that set a new standard for wealth management. Instead of focusing on one narrow slice, such as investments, we took a broader approach, one in which a team collaborates across a client's entire balance sheet. From investments to long-term strategy to tax and estate planning, our clients have access to the expertise they need when they need it. Our team shares the same philosophy and goals in serving our clients—and working together in the same office improves the quality of our process and the recommendations that we make. Planning decisions don't get made in a vacuum, the strategy is understandable, and the ongoing execution is handled in a way that ensures nothing falls through the cracks. In the end, the entire client experience is elevated.
