ASAM-ASM-585M – Extra Large

Each unit includes:

- Dual battery pack
- Dual harness
- One (1) year warranty covering gyroscope, battery, and harness
- Warranty excludes abuse (e.g., dropping or electrical shock)

Letter of Medical Necessity

The patient presents with a chronic hand tremor resulting in functional impairment of activities of daily living. The GyroGlove™ is a non-invasive, wearable assistive device designed to stabilize hand tremors during functional tasks, thereby improving functional performance and independence. Provision of this device is reasonable and medically necessary to address the patient's documented functional limitations.
