

# **SUPPLEMENTARY INFORMATION**

**Orbit Project  
Management Ltd**

**Build | Consult | Maintain**

# INTRODUCTION

At **Orbit Project Management**, we specialise in delivering successful projects through clear strategy, strong leadership, and practical solutions. With experience across a wide range of construction and **Ministry of Education** projects, we bring structure, efficiency, and attention to detail to every stage of the process.

We pride ourselves on building strong relationships with clients, consultants, and subcontractors, ensuring that projects are completed on time, within budget, and to the highest standards. Our approach is collaborative, professional, and tailored to meet the unique needs of each project.

**Orbit Project Management** is committed to adding value at every step – keeping your projects on track and your goals within reach.

# ABOUT OPM

Orbit Project Management (OPM) was established by Luhann Du Plessis, who brings over **7 years of proven experience** in delivering Ministry of Education (**MoE**) school projects. Recent MoE projects were completed as an Independent Contractor; the time was right for OPM to deliver projects independently as the Main Contractor.

With a strong foundation in both consulting and contracting, OPM understands every stage of the project lifecycle — from planning and approvals through to delivery and completion.

**We bring a clear understanding of the 10YPP process, 5YA funding, and Capital Works to every project to ensure a smooth project experience for the School, the Consulting Project Manager, and MoE.** We are well-versed in MoE processes, compliance requirements, and the specific challenges of working within school environments.

At OPM, we take a **collaborative project management approach**, engaging trusted subcontractors and consultants to ensure every project is delivered on time, on budget, and to specification. By combining strong leadership, clear communication, and rigorous oversight, we provide our clients with confidence and certainty at every stage.

**Our goal is simple: PARTNER** with all stakeholders to **DELIVER SUCCESSFUL** projects.
