

Jagdeep Singh Sahota, NACD.DC

Risk. Regulation. Technology. Sound Governance.

NACD Certified Corporate Director | Risk, Regulatory and Compliance Oversight |
Technology and Innovation Governance

Twenty-five years of operating inside complex, regulated, high-stakes environments, from global technology platforms to a federally regulated bank under a consent order. Paired with the NACD Directorship Certification, that experience translates to any boardroom that needs a director who asks the right questions and holds management accountable.

What I Bring to the Board

1. Risk and regulatory oversight:

Served as enterprise risk owner and reported quarterly to a Board Risk Committee in a post-consent-order environment. I know how to read a risk report and tell whether it describes the real exposure or just the dashboard.

2. Compliance program judgment:

Built a compliance framework from the ground up, covering KYC, AML, sanctions screening, beneficial ownership and regulatory reporting, with real-time monitoring and clear controls.

3. Technology and innovation governance:

Oversight of AI adoption, cybersecurity exposure, data governance, platform modernization and third-party vendor risk. I ask about failure modes and whether the risk framework was built before or after the roadmap.

4. Operator and P&L discipline:

Took products from concept to \$100B+ in annual volume, held full P&L accountability, scaled teams of 80+ and secured board-level investment approval. I know where margin lives and where risk hides.

Committee Strengths

Risk	<i>Primary contributor</i>	Enterprise risk, regulatory and consent-order governance, third-party and vendor risk, fraud and behavioral analytics.
Audit	<i>Substantive contributor</i>	Internal controls, data governance, cybersecurity exposure, regulatory reporting accuracy, surveillance adequacy.
Technology and Innovation	<i>Chair candidate</i>	AI governance, digital transformation, emerging technology de-risking, agile delivery oversight.
Strategy and Governance	<i>Strong contributor</i>	Partnership and M&A diligence, competitive positioning, customer and product lens, board structure and charters.

Boards I Can Serve

Regulated Industries:

Financial services, insurance, healthcare, energy and utilities, and government-adjacent organizations where compliance and public trust are non-negotiable.

Technology & Growth Companies:

Private, PE-backed and pre-IPO companies preparing for institutional capital, exits or scale, and needing governance maturity.

Nonprofits & Mission-Driven Organizations:

Boards that need structure, accountability, audit discipline and fundraising governance.
