

Gravity Premium 6 Person Team Room Table

As people become more mobile, organizations will need to adapt office spaces and technology to meet the needs of a hybrid workforce, this is where Design-Led can assist

The Gravity Premier furniture range has been developed to be used within the latest Video Conferencing spaces, designed to give users on both sides clear line of sight.

Each table is designed and tailored to your exact requirements, from sizing to finish. We offer full integration of control panels in the desktop and have a large range of in desktop power and connectivity available. Cable runways are built in as standard, hiding all the cables giving you a clean looking easy to manage table.

Gravity Premium 6 Person Team Room Table

The table range offers configurations starting at 4 users up which can be fully scaled up to full room fit out, including tiered levels.

Part of our service includes advice on sizing for your space to ensure seat spacing and positioning are optimised.

Design-Led offer a full range of Collaboration furniture including Media walls designed and scaled to your requirement, taking in all the latest sizes and technologies from LED to Projection including 21:9 Screen formatting

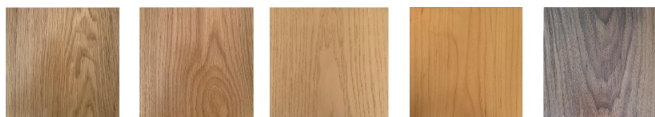

InSpace Collaboration table shown
