

In-Space Collaboration Room 10 Seat Table

In-Space Collaboration tables are designed to allow all participants to clearly see each other during a meeting, designed to encourage collaboration and make best use of the meeting room space.

In-Space tables are a perfect solution for group thinking within a meeting or huddle room.

Participants can connect to the screen to share ideas, and video conferencing can be incorporated.

In-Space tables start at 6 person all the way up to 12 Person configurations.

Includes monitor bracket for 55" to 65" screens
(Screen and AV Kit not included)

Design allows for easy install and removal

Each table is designed and tailored to your exact requirements, from sizing to finish. We offer full integration of control panels in the desktop and offer a range of in desktop power and connectivity. Cable runways are built in as standard, hiding all the cables giving you a clean looking easy to manage table.
