Why was the Save for College Program created?

It can be difficult to save for a child's educational future, but **you're not alone** !

- NYC Kids RISE, in partnership with the City of New York and NYC Public Schools, started the Save for College Program to support families to **begin saving and planning for college and career training from their child's very first days of school.**
- Each eligible child **automatically receives an NYC Scholarship Account with \$100**, unless their family chooses not to participate.
- Local organizations, businesses, and neighbors can raise and direct funds to students' NYC Scholarship Accounts through **Community Scholarships.**
- Having an NYC Scholarship Account:
 - Does not impact a student's or family's application for public benefits
 - Does not impact a student's eligibility for financial aid while the money is in the account.
- All eligible students can participate in the Save for College Program regardless of immigration status.
 - Families do not need to provide a Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN) for their child to be enrolled in the Program and receive an NYC Scholarship Account.

Research shows that children who have a college savings account and a plan for higher education are more likely to attend and graduate from college!
