Water Coil

** Same End **

** Opposite End **

Materials		
Fin	Aluminum	Copper
Tubing	Copper Stainless Steel	Aluminum Cupro-Nickel
Headers	Copper Stainless Steel	Aluminum Cupro-Nickel
Casing	Galvanized Stainless Steel	Aluminum Copper

The diagram illustrates two types of casing configurations. On the left, labeled 'Standard', is a U-shaped cross-section representing a single-walled casing. On the right, labeled 'Stacking', is a cross-section showing two adjacent casings sharing a common outer wall, with their respective interiors forming a U-shape.
