We are very proud of our door's credentials and its ability to meet the most demanding technical requirements.

Quality you expect

We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful wood grain finish which gives a Distinction door its prestigious authentic and premium aesthetic.

Engineered wood

For improved stability.

Decorative glass

Triple glazed and laminated as standard 24mm glass units for enhanced security and peace of mind.

Foam filled core

When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Reinforced core

The reinforced central board gives you extra reassurance that your Distinction door is both solid and secure.

Water-resistant composites

Water-resistant polymer composite rails help keep water absorption at bay, which helps prevent a bowed door; often associated with timber core alternatives.

*Craftsman available in White and Premium Distinction Anthracite Grey only. Nxt-gen Eclat not available in Standard Green or Red.
