## Planning & Specifications

- 48 Laying Patterns
- 49 ONESand
- 50 Recommended Uses
- 52 Packaging Specifications
- 55 Choosing a Contractor
- 56 Wall Capabilities Chart

### Pedestrian Traffic

Suitable for pedestrian use only, such as walkways and patios.

### Vehicular Traffic

Suitable for residential vehicle use such as driveways, as well as walkways and patios.

### Solar Reflectance Index

High solar reflectance keeps pavement area cooler. A higher number indicates greater reflectance.

### Permeable

Designed to allow increased drainage between paver joints and into the ground.

### EliteFinish™

Product produced with enhanced finish technology.

### ColorBold™

Product produced with enhanced colour technology.

MANUFACTURING EXCELLENCE & QUALITY

# Our commitment.

Through thick and thin, our company is constantly evolving. We've expanded our manufacturing many times over the years, most recently at our Brampton concrete products plant. This expansion gives us the capacity to produce both masonry and landscape products, as an integrated masonry and landscape products manufacturer and a single source for quality, durability and long-lasting style.

Your trust keeps us focused on our goal, and motivates us to strive to do more, to do better, to evolve along with the needs of our clients and industry trends. From our state-of-the-art production facilities to quality control, distribution and customer service, we ensure our products are made to last.

Thank you for making us your **ONE Trusted Source**.

150<sup>+</sup>

Years of manufacturing  
landscape & masonry  
products

400<sup>+</sup>

Dedicated employees  
working to serve you

8

Manufacturing  
facilities across  
North America

295<sup>+</sup>

Dealers across  
North America

All of our well-integrated product collections are built around different sets of design characteristics, yet revolve around five common axes.

## Simplicity

Our product design process begins with simplicity; A well-conceived lack of complexity that makes our masonry and landscape collections easier to design, quote, and install your most beautiful project vision every time.

## Artistry

Our fifth axis of design is about you. The preceding four axes provide all the ingredients for enhancing your creativity in any project: versatility in product size, shape, scale, and colour for an optimum product offering. The true artistry is in selecting and utilizing products from our various collections to express your creativity.

## Modularity

The sizes and scale of our products were developed for mixing and matching different products within each collection for a completely coordinated look. Each individually distinct unit in our product lines aids in building a continuous function.

# THE 5 AXES OF Design

## Unity

Our masonry and landscape products are designed for use together in unison. The continuity, affinity of colours, textures, surface finishes, product sizes and scale within our product collections allow various options for combining all these parts into a unified vision where all the elements of your outdoor design fit together.

## Continuity

Every successful home plan pivots around continuity. The unity between form and function, front and back yards, between horizontal and vertical surfaces, and even from masonry to landscape is what truly pulls an outdoor design theme together.

## CHOOSING A Contractor

You are about to invest in a long-lasting concrete landscape project. Like any construction project, the quality of the final result is highly dependent on the quality of the contractor doing the work.

### Recommended Contractor Qualifications:

- Member of ICPI and/or Landscape Ontario
- ICPI Certified Concrete Paver Installer or ICPI Accredited Paver Installer Company
- Project references (recommend installation experience of a minimum of 10,000 square feet)
- 2 year installation warranty
- Verify insurance and applicable licenses
- Adhere to the installation guidelines recommended by ICPI

To find a certified installer visit: [www.icpi.org](http://www.icpi.org)

# Capabilities Chart

This chart provides general construction limits based on a typical planter bed behind the wall. Reference the available Estimating Guides (Nueva®, Ortana and Proterra™) for higher retaining walls, where there is any sort of load (slope, fence, traffic) behind the wall, or where any other special conditions exist. Design support is recommended when there is a pedestrian guard required [area behind the wall is accessible and the wall height exceeds 600mm (23.6")] and/or a building permit is required [wall height exceeds 1,000mm (39.4")].

WALL BLOCK TYPE	DESIGN	MAXIMUM WALL HEIGHT UNDER IDEAL CONDITIONS		ADHESIVES REQUIRED	SETBACK ANGLE DEGREES	MINIMUM OUTSIDE RADIUS	
		INCHES	MILLIMETRES			INCHES	MILLIMETRES
Gardenia Linear	Setback	24	600	no	5	n/a	n/a
Laredo	Vertical	19.1	485	yes	0	n/a	n/a
Modan	Vertical	21.7	550	yes	0	n/a	n/a
Modeco One	Vertical	17.5	445	yes	0	30.25	768
Nueva® 75 Wall	Vertical	20.7	525	no	0	n/a	n/a
	Setback	20.7	525	no	3.5	n/a	n/a
Nueva® 150 Wall	Vertical	20.7	525	no	0	n/a	n/a
	Setback	20.7	525	no	3.5	n/a	n/a
Ortana	Vertical	20.7	525	no	0	48	1219
	Setback	26.6	675	no	7	48	1219
Proterra™	Vertical	21.9	555	no	0	n/a	n/a
	Setback	36.4	925	no	8	n/a	n/a

**Note 1:** Maximum height includes the buried portion of the wall and the coping unit (where applicable)

**Note 2:** Concrete adhesive is required as there is no form of interlock between units.

STRENGTH & INTEGRITY

# Our guarantee.

Oaks Landscape Products are manufactured to the highest quality standards in a tightly controlled, fully monitored production environment. Oaks Landscape Products warrants the original property owner that the concrete product is free from material defects. Material found to be defective will be replaced without cost. Colour matching cannot be guaranteed and replacement labour is not included. This assurance of quality is applicable where concrete products produced by Oaks Landscape Products are installed on the site and is subject to use under normal conditions.

Some Conditions apply.
