 FailSafe

Entry-Level Safety Strategy Workshop 

A minimum viable engagement to reduce risks and chart a path forward

Why This Workshop Matters

Identify your most significant safety gaps, risks, and constraints through a structured, expert-led session with leadership and key stakeholders. Move quickly with a low-cost entry to get momentum and alignment.

Key Benefits

Rapid Clarity

Understand current risks, culture signals, and system maturity—fast.

Low-Risk Fit Check

“Date before you commit” to larger projects and ensure alignment.

Actionable Roadmap

A prioritized plan that supports compliance and continuous improvement.

What's Included

Before the Workshop

- Discovery call
- Review of safety documents & policies
- Customized agenda & prep

During the Workshop

- Two hour facilitated session
- Leadership & stakeholder engagement
- Real-time identification of gaps and priorities

After the Workshop

- Summary report
- Simplified safety gap analysis
- Actionable recommendations
- 12–36 month safety improvement roadmap

Typical delivery: 5–7 business days after the session.

How It Works

- 1 — Schedule
- 2 — Workshop
- 3 — Get your Gap Analysis and Roadmap
