# "YUMMY"

## MOBILITY IN TURKEY

---

Welcoming At our Host School in Muratli

We arrived early and a lot was going on. We started with an icebreaking game to get to know each other. Then we were presented to the headmistress Selma and our fellow students, who made a tour around the school building with us.

Traditional folk dances and music followed and we had great fun. We also had the opportunity to taste traditional food made by the parents of our Turkish schoolmates. It was delicious.

After lunch it was time to work- we presented our videos- (recipes) to the group. Finally we were invited to leave our handprints on the wall. We shared our stories and learned a lot about each other. It was an amazing day.

**Yummy Lunch**

TUESDAY

We began the day with a Folk Dance class. It was hard but very funny. It was a great way to learn about the turkish culture. After this class we had a Logo Design Workshop on Canva in an IT class.

In the afternoon we had lunch in Muratli, offered by the Mayor.

Back to school 5th grade students interviewed students from each country and we created " My ID card" and then we helped putting up our country introduction tables

# Wednesday

Today we visited the "Inanli Fountain" and the Picnic Area "Turku" - Turkish family garden. We played many games in the picnic area and had a workshop on Wristbands. In the afternoon we celebrated the birthday of our friend from Portugal, Joao Campos. As for the presents, the Portuguese group bought him a white t-shirt and we all signed it with our names. But our favourite part was when we sang the "Happy birthday" song in different languages: Portuguese, English, Spanish, Polish, Turkish and Estonian. It was great. In the afternoon we had a guided tour to Ataturk House in Muratli and learned about his life story.

# Thursday

We began the day very early, because we had a trip of about 3 hours ahead of us. We are going to Istanbul. As soon as we arrived we were eager to see everything.

We passed by "The Arasta bazaar" where we saw some really pretty, traditional handcraft.

Then we went to the Topkapi palace and to the sultanahmet square, which are very pretty places where we could enjoy the view and the beauty of the nature. This places were lovely and really nice to visit.

Of course we couldn't come to Istanbul without visiting a mosque! We visited Hagia Sophia! For a lot of us it was our first time in a mosque so we were very excited to go...the girls...had to wear a headscarf 'cause of the muslims beliefs.

After this amazing experience we finally had some time to go to the Grand bazaar where we could buy some gifts to remember this unique experience that was happening to us... It was finally time for the long awaited moment of this day... the boat trip!! We took a boat trip on the Marmara sea It was definitely the best part of the day! We watched the sunset and we even saw dolphins! We chatted with our schoolmates and locals too. Everybody was so friendly. It was a unique experience! For dinner some groups had bread & fish and others hot dogs and things like that. We drove back to our hotel, exhausted but happy.

## ISTANBUL

# Friday

We met at the Hotel in the morning, after breakfast we started walking down the streets of Tekirdag .A few minutes later we arrived at the Archeology and Ethnography Museum. At first it seemed like a boring old building, but inside it were actually years and years of pieces from the history. We learned a lot about Turkey. Overall the museum was an awesome experience.

At night we had our farewell dinner. It was very nice and tasty, but it was also somehow sad because we had to say goodbye to our new friends. We were given our certificates.

After our history lesson we got onto the bus heading to "Doga College". A private school that was going to host us in the afternoon. As soon as we arrived we were welcomed by teachers and students. It was a very big school with lots of open space areas. We were taken on a tour . Students showed us the school's facilities and we even observed some lessons. Students were using a 3D printer and some were moving around in rollerskaters. It was so unusual and funny. The school was very beautiful and pretty clean. We also really liked the animals they had in the garden. There were rabbits,chicken, ducks and even a horse. There were lots of activities including making bread and many outdoor games. It was another amazing experience. In the late afternoon we went back to the hotel and prepared ourselves for the farewell dinner.

At night we had our farewell dinner. It was very nice and tasty, but it was also somehow sad because we had to say goodbye to our new friends. We were given our certificates.

It was an amazing week.

Thank you Turkey!

See you soon, Poland!
