Painting and having fun. New approaches to art.

MILAN: A VISIT TO ITALY'S ART AND FASHION CITY

Stories from art, creativity and the last trends

THE SILK INDUSTRY

Stories from entrepreneurship and innovation. Can school get inspiration here?

ROMANTIC COMO

A visit to romantic Lake Como

WELCOME TO BINAGO WITH MUSIC

The Istituto Comprensivo Valmorea is made up of several schools, and one of them is Binago.

All teams had a wonderful welcome, with a beautiful concert directed by a Music teacher and some students. They played the "Ode to Joy" is the anthem of the Council of Europe (CoE) and the European Union (EU).

The atmosphere was very comfortable and superb!

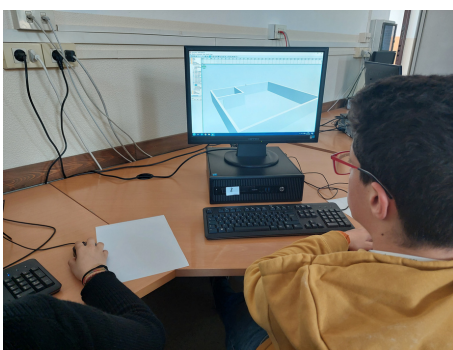

We were hosted by several teachers and by the headmaster, Massimiliano Branchini.

The local coordinator was also there, Federica Lizzio.

How to build a 3D monument

DESIGN WORKSHOP WITH ICT TEACHER

Monday, 20th of March
The morning of Monday, 20th of March, was spent in a design workshop. An ICT teacher of this Istituto Comprensivo lectured us on how to build a monument 3D. The teacher taught us how to do it using a digital board, in a clear demonstration of all the steps necessary to accomplish the task. There were also some of her Italian students who would help, if we had any kind of doubts. This workshop was done in the computer classroom which was well equipped for the task.

This activity was interesting and we learned a lot.
The class was 45 min.

Oscar, Milena and Yasmin

THE SILK INDUSTRY IN COMO

All partners visited the silk factory Ratti, which was founded 1944, in Guanzate, Como. We saw how fabric is produced and different products are designed. Pictures were not allowed inside the premises.

It was a very big place and it was not only machines, it had natural grass too. First we went to see the designs that they have been creating and produced since 1944 in Italy. There were over a million products and they were beautiful, but mostly for expensive brands such as Chanel, Dior, Gucci, and Versace, among others. Additionally, we were shown some loud machines where these fabrics are processed. Some of them were the machines that were weaving the silk and the machines that use special high-tech programmes and models to paint the designs. We were very happy with this wonderful day.

Nazli, Greta and Abdelhakim

A VISIT TO MILAN

On Tuesday all the students, teachers and Italians went to Milan. The journey by bus took us around an hour. They gave us a guided tour of Milan. We started our sightseeing with a short stop in the most modern part of the city. We admired glass-walled skyscrapers, modern blocks with gardens on balconies and other wonders of modern architecture. Then we went to the old part of the city. Here we saw the famous cathedral and the Victoria Emanuele Galery. Later the guide took us to the castle which was the most important fortress. The most impressive and the most appreciated building was cathedral Duomo which is the most famous sight of Milan but the castle was also interesting and large.

Finally we visited Pinacoteca, the famous art Galery with masterpieces of famous artists. The Art Galery was very interesting and beautiful. We loved Milan and we want to come to Milan again.

NAILA AMAR BUZIAN

MILAN

HANDBALL MATCHES

MEETING THE MAYOR

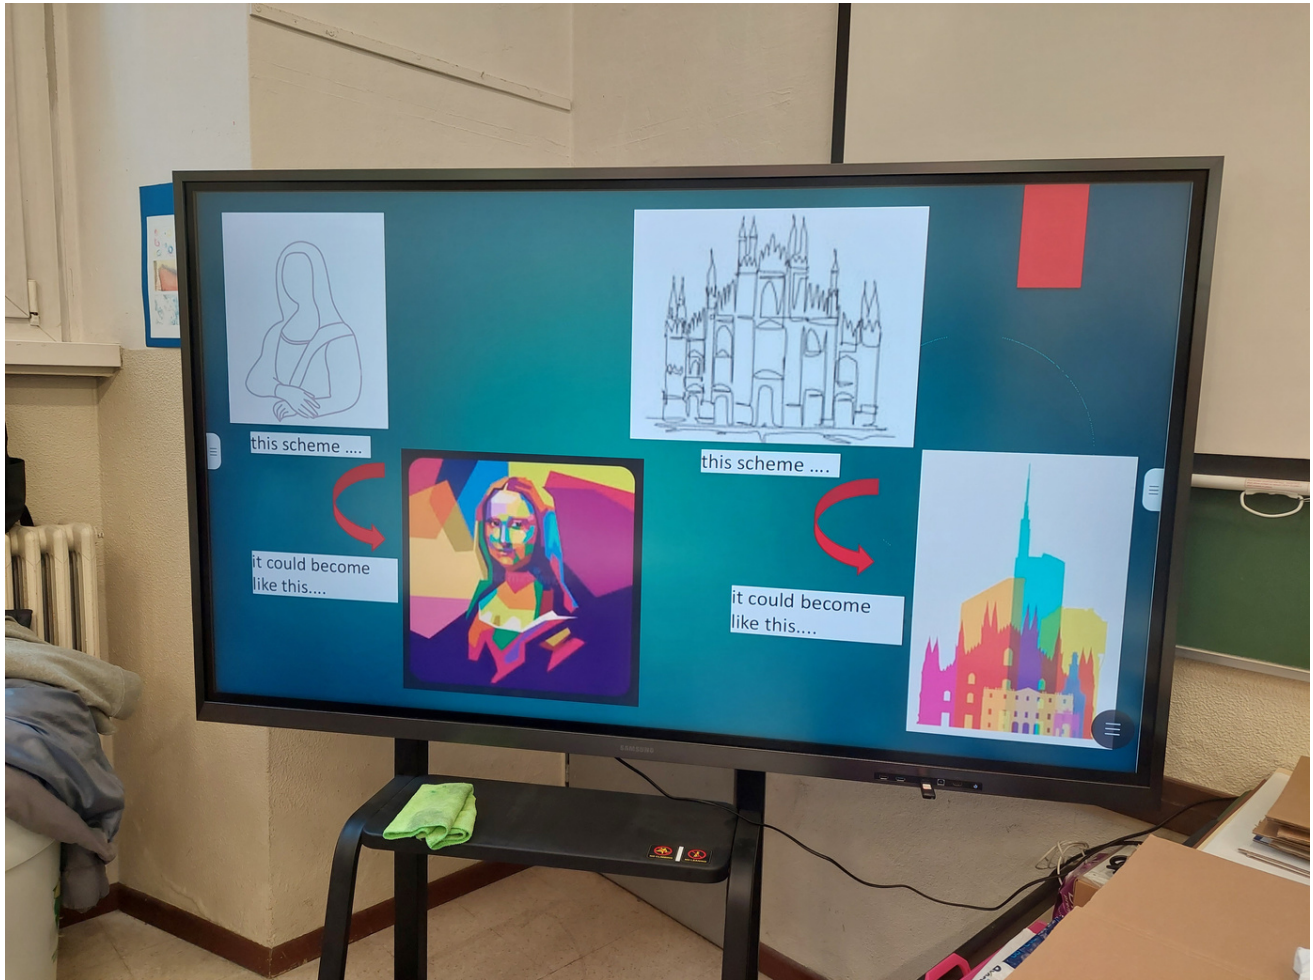

The whole team met the local authorities: the mayor and the Civil Protection. All participants got to know a bit of the history of Binago.
