### **Operation Christmas Child Shoeboxes Arrived**

We got word this last month that the 100 Operation Christmas Child Shoeboxes that we filled arrived in time for Christmas for children in the West African country of Benin. It borders Togo, Niger, and Nigeria.

It has a population of about 13 million people. French is the main language. Most of the people live on the southern coastline. It is one of the world's poorest nations and most of the people are involved in farming and cotton production.

Let us keep the people of Benin in our prayers.

Thanks again to all those who helped with our Operation Christmas Child Shoebox Mission Project.
