

# Ski Lingo

# Dump

Dump means like its pouring except snow so you will hear it when it's snowing or the day after it snows (Or dumps). The word dump is the slang version of when it snows a lot.

# Lookers left and Skiers Right

Lookers left is left looking up the mountain but right looking down the mountain. This is important because if you are skiing and your on the chair lift and you say left and you turn left down hill then you are in a total different area.
