

Wall Control Blasting Course

Perth – Western Australia

Belmont Sports & Recreation Centre

Thursday 21st and Friday 22nd August 2025

Blast It Global specialises in engineering consultancy services, mentoring and training for improving blasting outcomes in mines, quarries and construction projects. Our team of three has over 90 years of combined industry experience.

This Wall Control Blasting course provides a comprehensive two day training program, drawing on practical experience gained on site, field trials to perfect new techniques and innovations, and research to recognise the underlying physics.

Who Should Attend: Drill & Blast Engineers and Designers, Geotechnical Engineers, Technical Services Superintendents and Managers, and anyone in interested in learning about wall control blasting.

The topics that are included are:

- *Blast design concepts;*
- *Fundamentals of wall control;*
- *Wall control programs;*
- *Wall control rock characterisation;*
- *Explosives properties & selection;*
- *Initiation design concepts;*
- *Presplitting and trim blasting;*
- *Wall control hole size selection;*
- *Vibration control techniques;*
- *Many case studies and results.*

Blast It Global Pty Ltd
ACN: 168 728 596
ABN: 13 168 728 596
Email: drew@blastitglobal.com
Phone: 0477 339 648

The training will use power point presentations, videos, workshops, software and discussions to engage the participants and convey the information. The course presenters are active blasters who regularly provide services to the resources industry; including blast design mentoring, blast improvement studies, site audits, explosive formulation research, explosives product testing, and engineering consultancy services.

The subject learnings will be reinforced with specialised workshops focusing on topics which are relevant to delivering benefits at the participants' workplaces.

Workshops

- Wall control outcomes and recommendations for improvement

Training Certification

All students attending the full 2 day course, will be issued with a Certificate of Attendance.

Prerequisites: All participants should have a minimum of 6 month's experience in blasting applications, such as drill and blast design, supervision of on-bench teams, experience working with explosives, or relevant geotechnical/ geology based roles. Participants should have a basic knowledge of drilling and blasting practices.

Schedule:

The Wall Control Blasting Course is conducted over a period of 2 days, with 8 hours of learning per day.

Course Cost:

Included in the two-day course are; course notes, catering (morning/afternoon tea and lunch, coffee and tea), and issuing the Certificate of Attendance.

Wall Control Blasting Course \$3,350 per attendee (GST exclusive)

Additional costs that are at the attendee's expense may include items such as: Accommodation, breakfast and evening meals, parking, transport to and from the venue. All the additional costs must be paid by the participant or the company that the participant is employed by. Blast It Global will not pay for and is not responsible for any of the additional costs.

The course is limited to a minimum of 4 and a maximum of 18 participants.
