ADVANCED SPORTS SUPPLY

SPORT IS BUILT HERE.

ERASER

- Lightweight yet built tough to handle everyday field maintenance with ease.
- Industrial-strength rubber construction creates a smooth, professional-grade finish on infields and playing surfaces.
- Perforated design allows infield material to flow through the mat for more consistent leveling and reduced material buildup.
- Safe for turf and field features—won't damage grass, pitching mounds, home plates, or even golf greens when crossing over them.
- Outperforms traditional drags by resisting kinks unlike steel drags and preventing wet material from collecting like cocoa mats.
- Rolls up easily for convenient storage and transportation.
- Ready to use right out of the box with an included tow rope and attachment clips.
- Drags available in 3 sizes; Mop available w/ 66" handle
