HAPPY HANUKAH!

NOV. 28th -

DEC. 6th 2021

As restrictions to the Covid-19 pandemic ease we will be following the best practices to keep our community safe and encourage you to be fully vaccinated with all the uncertainty of the Delta and other variants.

We have communication from other Synagogues, government, medical offices and businesses. Our primary concern is the health and safety of all our members and guests and our commitment to continue to serve the needs of the business community of the financial district of Lower Manhattan during this challenging period.

We continue to monitor guidance, directions and recommendations from the Center of Disease Control, World Health Organization, our city and state officials and other medical professionals.

Please make good decisions for your own health and safety and know that the Wall Street Synagogue will support you as best we can.
