

October 20, 2019

Dear Christian,

I'm writing this letter to thank you for the excellent work you did for my recent Bowling to Beat Cancer event. I'm happy to recommend you to other organizations looking for a way to boost the profile of their event and raise more money.

When I first heard about Showcase Silent Auctions I was skeptical and I called several of your references. In each case, the people I spoke to did not just give you their approval...they gave you glowing praise for being so great to work with and going above and beyond their expectations.

When you explained to me that you would bring your products, put up your own display and silent auction sheets, stay with the items throughout my event (encouraging guests to bid), collect the money, and clean up with no cost or risk to me, I thought it was too good to be true. But with those strong recommendations I decided to give it a try. You answered all my emails and phone calls quickly and thoroughly. I gave you a "wish list" based on a survey I gave my guests in advance, and you fulfilled it! You were so patient with my questions and last minute updates. You were right on time at my event and your fantastic display of high-quality items truly took my event to the next level in terms of legitimacy and range of offerings. And the guests just plain had fun looking at all the fun trips, pictures, and signed collectibles.

Thanks to you we raised 1/3 more than what we would have raised with just our usual raffle. I felt very comfortable and informed with regard to handling of the money. You scanned the bid sheets and sent them to me the very night of my event. You contacted one guest who had left early and made the final collection, then sent me a check within 2 weeks. One of the guests at my event has already asked me to pass on your information so they can call you for their event.

Thank you so much for a fantastic experience. I look forward to working with you at next year's Bowling to Beat Cancer!
