

HUMICORE™

“Feeding the Soil. Powering the Plant.”

NEW SOLUTIONS

GURANTEED ANALYSIS

Organic Matter	30.0%
Humic Acid	20.0%
Organic Carbon	Derived

HUMICORE™ is a high-concentration liquid organic soil conditioner formulated to improve soil structure, nutrient availability, and microbial activity. This liquid formulation delivers a rich source of humic substances and organic carbon, enhancing cation exchange capacity (CEC), water retention, and root zone efficiency.

Humic acids chelate nutrients, improving their availability and uptake, while organic matter and carbon stimulate beneficial soil microorganisms. HUMICORE™ improves fertilizer efficiency and supports long-term soil health across all crop systems.

REG , LOT , Net Weight

Lot No.: XXXXXXXX Mfg Date: MM/DD/YYYY

Exp Date: MM/DD/YYYY Net Contents: 2.5 gal (9.46 L)

Net Weight: 27.1 lbs (12.3 kg) Density: 10.8 lbs/gal @ °68F

INV. ID: 1007610

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

Apply HUMICORE™ as a soil, fertigation, or foliar treatment.

Typical Use Rates:

Soil / Fertigation: 1–4 quarts per acre

Foliar: 1–2 quarts per acre

Applications may be made throughout the growing season.

STORAGE & DISPOSAL

Store at temperatures above °32F (°0C) and below °110F (°43C). Dispose of unused product and empty containers in accordance with Federal, State, and local regulations.

IMPORTANT NOTICE

Read the entire label. Use only in accordance with the label instructions. Use in conjunction with a normal fertilizer program. UptakePro is intended as a supplement to a regular fertilizer program and will not, by itself, provide all the nutrients normally required by plants. If terms of Limited Warranty section are not acceptable, return unopened product at once.
